## Fuhrmann - Medical products and services.

Fuhrmann GmbH was founded in 1978, and is still owner-managed today. We produce and market medical products and services. As a system supplier, we are a competent partner and consultant for hospitals and the primary care sector. Medical expertise and an intensive confidential dialogue provide the basis for successful, long-term co-operation with our customers, both in Germany and the rest of Europe.

### Expertise in all sectors

Fuhrmann GmbH employs more than 150 people at three sites, in Germany and in the Czech Republic. In all divisions of the company, our qualified employees ensure swift, smooth operations, responding flexibly to customers' needs. Extensive knowledge of the industry and advanced training programmes guarantee a high level of consulting expertise, and the customised solutions this produces.

### Premium product quality you can rely on

It is our highest priority to offer our customers products encompassing maximum quality and safety. Our quality system is certified according to DIN EN ISO 13485 and our products meet the essential requirements of the medical device directive 93/42/EEC.

### How can we assist you?

A good product develops from an intensive dialogue between supplier and user, and a balanced mix of practical experience and manufacturing expertise. Our products satisfy all market requirements, and have a proven track record stretching back decades. They simplify processes, are easy to handle, and inspire a feeling of security in both users and patients.

We are glad  
to assist you!
