

Company profile

Solutions

For more than 40 years we have been supporting medical staff in their daily work with patients. With our high-quality products and consulting services, we offer our customers individual and efficient solutions.

Made in Europe

Fuhrmann is clearly committed to Europe as a business location. Our state-of-the-art production facilities in Germany and the Czech Republic allow us to respond flexibly and promptly to our customers' requests.

Quality

Improving safety for both users and patients is our goal. Our products meet the highest safety requirements, they simplify processes and are easy to handle. This is a result of our medical expertise, intensive communication with the product users and our certified quality management system.

Putting people first

Openness, continuity, development, passion and responsibility are our pursued corporate values. They are the basis of our long-term relationships with our customers and employees.
